

Homework 0 Solution

June 16, 2020

1 Homework 0

June 13, 2020

This assignment will count for 0.5 points in the Homework category and 0.5 points in the Extra Credit category and will be graded on completeness alone

1.1 Problem 1 (0.5 points)

Install Julia 1.3.1 and add the JuMP and Clp packages. Create an IJulia notebook titled “**Homework 0 Solution**” and run the following code in the notebook. Save your notebook *including the output* as a PDF and upload it to the Homework 0 dropbox on Canvas.

```
[1]: using JuMP, Clp

m = Model(Clp.Optimizer)

println("Hello World!")
```

Hello World!

1.2 Problem 2 (0.5 points)

Complete the Student Interest Inventory survey on Canvas.

```
[2]: print("Finished!")
```

Finished!
